

Good evening Mayor and council. My name is Clara Coles and I have lived on Sentinal Hill for 71 years.

My home is in a single family zoned neighbourhood , which I'd like kept that way.

My family supports my desire to stay in my own home, with support when its needed.

But , if I needed to consider entering a care facility I would be terrified to move into a place like this one.

This is a bad location .

There is heavy traffic to contend with , also noise and fumes.

It is a bad area for walking and is not convenient for shopping.

I am against increasing the density in this area.

Please vote to reject this proposal.

* I know it's late and we're all tired - but past experience tells me it's important that residents get involved as early as possible. So thank you for bearing with me and other residents who wish to speak tonight.

Re: January 27, 2014 Council Meeting
District Development/Community Consultation
Milliken Development Proposal (Maison Senior Care Facility)

1010-20-12-084

My name is Melinda Slater and I reside at 1058 Keith Road.

Received at January 27, 2014 Council meeting for Item 9.

There seems to be an increasing number of development driven requests for changes to our OCP. Residents are fed up with a relentless demand for zoning changes that include large increases in density.

If the District actually has a "plan", then what is it? It seems to rely heavily on ambiguous policies which are subject to vastly different interpretation and flexibility to change existing zoning to accommodate development requests as they are received. However growing outcry indicates a strong objection to this approach.

I have spoken and written to Council on a number of occasions regarding a process that favours developers at the expense of residents. And I wouldn't have thought it possible, but based on the debacle the Preserve Sentinel Hill Committee encountered at the Dec 5 Open House; I'd say we've reached a new low.

I am referring to District staff requesting the Sentinel Hill neighbourhood committee leave the Open House and then failing to respond to requests to identify who directed this. This Open House was billed as a District Community Consultation Meeting. Does anyone else see the irony here? It would be laughable if it were not such a serious assault on democratic principles.

Further evidence of a distinct bias can be found in correspondence from the Director of Planning, which states: "The District **generously** allowed a citizens group in opposition to the project to present materials at the same meeting".

The District's own Public Involvement Policy tells us that Council and staff will ensure that the public has opportunities to participate in **meaningful** and timely ways; and that public involvement processes **are, and are perceived to be**, open, understandable and fair.

Well there is nothing meaningful or fair about this. Public information sessions have become nothing more than a showcase to promote the developer and manufacture consent. Community consultation, merely a public relations manoeuvre; feedback routinely ignored.

The Public Involvement Policy is not being adhered to for this process and it certainly wasn't during the Grosvenor application.

It's time taxpaying residents are given due consideration and enforcing this policy (which

I've never heard of before now), and making the results public, would be a good start.

Staff reports should also be required to list the pros **and cons** to any development application that requires a zoning amendment. And as the Planning department seems to work as an advocate for developers, how about designating someone to work with community or neighbourhood groups?

I ask Council to work with residents to improve the community involvement process as what currently passes for public engagement is simply not adequate.

Thank you.

Melinda Slater

Here is yet another development proposal that has left residents with the perception that -

- 1) Developers, rather than residents have greater influence in our district.
- 2) Resident's concerns for neighbourhood character etc. are not integrated into the development process.
- 3) Zoning and the OCP means nothing.
- 4) A small group with deep pockets will always win over a group without deep pockets no matter how large.
- 5) Planning works for the developer and against residents.

Council - whether you agree or disagree with these points is not relevant. The fact is there is an ever growing group of citizens that feel this way. That alone should be sufficient evidence to tell you that something is seriously flawed and needs repair now.

A growing number of residents object to policies that allow for spot zoning and actually encourages developers to request (and more often than not receive) variances - especially increases to height & density - rather than developing within established parameters. Additionally, once a zoning or OCP amendment is achieved staff openly anticipate that developers will continue to make requests for increases to heights or density as the project is constructed. No wonder residents are disillusioned and skeptical. Yet I sympathize with Staff who are caught in the cross-fire between upholding policies that more and more residents vehemently object to.

So Council, I ask that you not just listen to your residents, please, actively work with some of them and your staff to repair these process and policy flaws before residents become so jaded they become completely disengaged with our community.

West Vancouver – 926-0187

MS. BERG + DEVELOPER
REFER TO "BROAD COMMUNITY
SUPPORT" HOW WAS THAT CONCLUSION
MADE ESPECIALLY AS COMMENT CARDS AND
SURVEYS DID NOT REQUIRE NAMES OR
ADDRESSES?

I have to say, to build a care center itself is not a bad idea, but the problem is they select the wrong place. Based on the information from my realtor, after the high zoning program starts, my property may devalue \$200,000. I understand my house value could be up and down with the market change.

I encourage my daughter to do some volunteer work for the community. My wife and I also do some donations time to time. But force my property to lose \$200,000 market value for next 20 years is totally another case.

The reality is, a company will build business here. It's not a bad business. But because it selects the wrong place, all the neighbors have to lose money. It is absolutely same as all the neighbors are forced to write a check to subsidize this company's profit making business. This is not acceptable.

Let me tell you my story.

My family landed in Vancouver in 2005. I looked around the business environment here. I could not make up my mind to entirely move here, because I had my quite good business in China already at that time. In 2007, my wife got pregnant again. But there is a One Child Policy in China. To have second kid is not legal. I have to make the choice, to lose my girl or to write a check with the amount I can't afford. I decided, I don't allow anyone to kill my daughter. So finally I lost all my business and we moved here. My second daughter was then born in Vancouver 2008. At that time, I guaranteed to my wife and my first girl, this must be best decision I had made in our life, because we came to a great country to live with great people. No one will force us to do anything we don't want to do. But today, if this program gets approval, it will be same as we have to write check for others again.

In the future, how can I tell my girls to be a good person, to be fair to other people?

It should not happen.

WEST VANCOUVER CITY COUNCIL MEETING January 27, 2014

District Development & Community Consultation Process Fails Residents and is counter to District Policy #02-10-108 on Public Involvement

Good evening council members and Mayor my name is Richard Loat and I live at 780 Eden Place, West Vancouver. I am a member of Preserve Sentinel Hill and am speaking as a resident and on behalf of the group.

Please post these notes with Council correspondence and in the development application site

We can point to more than 35 situations relating to the Milliken Application that demonstrate how the development and rezoning process is biased in favour of the application and directly in conflict with the District of West Vancouver CORPORATE POLICY #02-10-108, 2.2 Guiding Principles for Public Involvement parts a through h. with particular emphasis on e and g which deal with making sure council is properly informed and that processes are open and fair. As such we request that tonight you Vote C - reject the Application. Let me give you a few examples:

May 5th Open house and subsequent meetings

1. Staff designed a survey with leading questions on land use, the need for care homes and didn't refer to neighbourhood concerns.
2. One question discussed the importance of placing trees around the development - BEFORE - the community consultation had even considered whether residents wanted the project.
3. Names & addresses were not required - a basic flaw in information gathering which has allowed for poor & selective interpretation of data.
4. The survey contained factual errors on the proposed development - staff's report to Council conveniently did not mention that staff had made an error.
5. A staff member (since retired) made introductory statements that made it look like the district was lobbying in favour of the project.
6. The Open House report was released four months later which is neither timely nor fair to residents and council.
7. Council first voted against a motion on the project then reversed its decision. During the voting process, a councillor reached out to the developer with additional questions to the developer that were in conflict with due process.
8. Early on, planning did not provide adequate transparency to residents as to how far the project had actually progressed - this gave the developer an early advantage to lobby groups for support.
9. Nevertheless, in spite the inherent biases, low attendance at the open house and few responses, it went forward.
10. The developer through actions and correspondence made it clear to residents that to him community consultation was a nuisance, and simply meant

speaking to three adjacent properties - he only reluctantly agreed to speak with other neighbours, first trying to meet individually and clearly told us he did not have to meet with us or answer questions.

The development application process:

11. Significant district staff resources are dedicated to moving this project forward. Opponents have no access to public funds to support their views.
12. The sheer momentum from the DRC and Planning process moves the project forward and tends to overwhelm opposition.
13. Accordingly, residents have said to us - "it's already a done deal - don't waste your time".
14. **Staff, Planning and the DRC's responsibilities are "out of scope" when it comes to dealing with outright opposition to a project - they are there to develop/design and draft zoning guidelines and not to accept or consider no's to development. In the meantime projects gain momentum**
15. **We have never been allowed to question the DRC on content - i.e. land use and character of the neighbourhood - residents can only discuss process.**
16. The district website says that respecting the character of neighbours is critical - but who at the district has defined the character of our neighbourhood? No group that we are aware of - that's why we've been proactive & done it ourselves.

Dec 5th Open House - Process, meeting and other items

17. Preserve Sentinel Hill had to proactively ask permission to bring materials to the Open house. Opponents should be proactively invited & on equal footing.
18. At the open house - there was no room for our materials - the developer had taken all the space, yet staff knew we were coming.
19. The developer told us that we were not welcome, "it was his open house, to get our own open house and that only two of us were opposed to his project".
20. **Planning staff asked us remove our materials and leave the open house. Who approved this decision?**
21. **We lodged official complaints about staff and the developer's actions and asked questions over five weeks ago. When will the district answer our questions?**
22. Has the district sent an official note to the developer registering our complaints about his behavior? If not, why not?
23. **Staff purposely chose not to use a questionnaire only a comment sheet. How convenient! - as this hid evidence of the neighbourhoods' real and contentious issues - spot zoning, no respect for neighbourhood character and that this is a poor location. Staff misled residents by keeping them in the dark by omitting any references to real issues. This is more evidence of favoritism to the developer.**
24. **A comment sheet favours the developer and goes to tacit support of the project - by purposely drawing no attention to the issues against the development**

25. In written comments to a resident, S. Slater, the district CAO mischaracterized the events at the Open House by the complete omission of any references to the developer's & staff's displays of poor judgement - staff and the developer were made to look good at residents' expense.
26. District staff is covering up and won't acknowledge in writing that staff and the developer made errors or that the events even took place.
27. Planning has not produced written notes on what took place possibly in the hope of burying these events within a larger, verbal report to council.

Planning's report to Council on the Dec. 5th, Open House

28. Staff has completely whitewashed the report of any evidence of their and the developer's misconduct at the Open House that could make the developer, staff or District look bad.
29. The report contained exactly zero references to our complaints about the developer's actions, invasion of our privacy, and being asked to leave by staff.
30. A private not a public meeting was held after the Open house. As one councillor said "this meeting is only to seek your input on how the project can be improved". Let's be clear staff is misrepresenting this meeting as part being part of the "community consultation" - but the private meeting only encouraged discussion on ideas to push the project forward and did not encourage discussions on cancelling the project.
31. Residents did not appreciate being invited at the last minute - we are sure that staff and council were aware of the meeting before we were - this was a good way to keep our attendance and feedback to a minimum.
32. Comments made to a councillor by a resident that "developers controlled city hall" - were selectively omitted from the notes, yet staff heard those comments. Items that could reflect poorly on staff, council or the developer were sanitized.
33. Staff clearly states that the report was looking for trends and themes and that it's not an exact science - but then jumped to the conclusion that there is "general support" from correspondence and "broader Community Support" - How can you measure/quantify "broader and general support" when you can't even count names and addresses? How can you call it community when you don't know who wrote to you? Which community?
34. District likes vague feedback - it allows for, using staff's own words, broad and general misrepresentation.
35. Without contact information, how can staff know which responses came from the city "designated" area? Staff and district made a big fuss about consulting people in the designated area. Planning's process doesn't do that at all. They don't even know where responses are coming from? Are they afraid of the responses they will get from the residents within the designated area?
36. How does council get any information on neighbourhood character which they claim is so critical, if planning's survey and comments sheets can't even tell Council whether comments are coming from the designated area? You don't know where people live?

37. The head of Planning admitted that he decided **not to ask for names and addresses of residents**, plans to continue that practise going forward - and still has not told us why he considers the existing process “best practice”? The poor excuse “its customary practice” - favours biased reporting.
38. Tonight’s process - we have to cobble time together using our neighbours’ proxies - how fair is that? - Staff and the developer got reserved time - we did not.

Preserve Sentinel Hill believes that District processes and actions used to gather and interpret public feedback are flawed and biased in favour of development and rezoning within our neighbourhood. Tonight Vote Option C - reject the application and fix the district sub-par practice of collecting public input with comments sheets with valid contact information

Please post these notes with Council correspondence and in the development application site. Thank you.

My name is Andrew Franks and I live at 736 Eden Place.

This proposed development is huge. It would be a 75,000 square foot structure plunked 40 feet away from 3,000 square foot homes. In the case of my property, the Maison common area is 18 feet from my property line. At 40 feet, that's 20 feet less than the length between a pitcher's mound and home plate. How could that not be intrusive in a single home residential neighbourhood?

There has been some misinformation about how re-zoning two residential lots like this is not precedent setting.

How Comprehensive Development zoning like this has been used many times in West Vancouver in single residential neighbourhoods such as this proposed development.

Well, I looked.

I looked through every single one of the 50 CD zones in West Vancouver. And the very clear and definitive answer: there's nothing like this. Last week, I sent a letter with the classifications of all the CD zones in West Vancouver and I hope you had the chance to review it. Almost without exception, CD zones have been used in existing high density zones such as Marine Drive, or in new developments such as the Whitby Estates. Even these new residential developments with CD zoning, the density is at least half that of the FAR 0.98 proposed by Maison.

The exceptions to this? There are THREE that are closer to single family homes but without exception are at least half the density of Maison and again, with significant physical barriers from single family homes. They are:

1. CD4 – at 6520 Marine Dr.
 - o Firehall converted to Single Family residential with FAR .35.
2. CD16 – at 3rd Street, bounded by Hugo Ray Park and the Highway.
 - o Strata with FAR .425
3. CD27 – Collingwood School.
 - o Pre-existing school – Glenmore. FAR .45

Quite simply, there is no precedent for such high-density CD zoning so close to single family homes in existing single family neighbourhoods. It would be a terrible mistake if Council makes it a precedent with this proposal.

The last point I would like to emphasize, with this focus on covenants such as closing blinds at night, for example. If this development has such minimal impact on the homes in the neighbourhood, why would this need to be so strongly recommended?

The OCP rezoning criteria is very clear that there needs to be minimal impact on a

surrounding neighbourhood, and even defines these as significant barriers such as roads or greenbelts. A thin layer of trees so close to single family homes is totally deficient. It has never been enough before. Why now?

The Maison development would be a monumental error in judgment for Council to approve. Please consider your residents who have invested in the community and rely on you to ensure their interests are not undermined. There is no precedent for this type of high density development in single residential neighbourhoods. Don't destroy the fundamentals of a community. Please reject this proposal tonight.

Of 553 Comments – 416 or 75% say **NO to the Development**

Giuseppe Del Vicario, resident and owner of the property at 890-8th Street in West Vancouver and within the District designated area asked me to read this note on his behalf. My name is Philip Falls from 770 Eden Place. Please post these notes with Council correspondence and in the development application site.

As you can easily see, Mr. Loat’s “Sea of Red” splashed across the District designated area map shows very strong support for keeping this area zoned for single family homes and against spot rezoning. Members of council, staff and developer can’t deny these results.

In addition, we reviewed staff reports, correspondence to staff and council and results from the open houses. Of the 553 comments received – 75% or the overwhelming majority are against the development.

It’s important to note that most supporters of PSH are not against seniors care although they have told us they could not afford the average price of about \$6,500/month. They have said that they believe FIRST in preserving the character of the neighborhood and are against this unprecedented spot rezoning of their single family residential areas. ONLY THEN, would they entertain a discussion on the type of care needed (with a focus on affordability) and in a location that is already appropriately zoned - Not the other way around as the District is doing.

Jan. 27, 2014

Of 553 Comments – 416 or 75% say NO to the Development

416 (75%) Vote NO

137 (25%) Vote YES

217 (52%) Inside Area

14 (10%) Inside Area

189 (46%) Outside Area

21 (15%) Outside Area

10 (2%) Unknown Address

102 (74%) Unknown Address

- 75% of open house, correspondence & surveys say **NO** to the development
- NO votes are of high quality – 98% with known addresses
- YES answers are of poor quality - 74% have no addresses
- Developer basically has no support from area – 14 of 231, barely (6%)
- Staff's biased public input practices still couldn't prevent PSH from getting overwhelming support in favour of preserving neighborhood character
- There's no doubt: the facts clearly support preserving single family homes and are against spot rezoning & this development. **Vote C - Reject the application**

WEST VANCOUVER CITY COUNCIL MEETING January 27, 2014
Research shows that *Maison* is not in line with Best Practices

Speech 1

Good evening Mr. Mayor, Councillors and staff. My name is **Marie Payette-Falls, 770 Eden Place**. I'm speaking on behalf of **Jennifer Franks, 736 Eden Place** & a member of Preserve Sentinel Hill, who can't attend this meeting and has asked me to convey her thoughts to council in her own words.

"I'm strongly opposed to this development and I'm here to speak about **how *Maison* is not in line with best practices in Seniors' Facility Development and to provide evidence to illustrate why**. As stated in an email I sent to councillors Booth, Gambioni & Panz, there's a **growing amount of evidence about best practice in facility design and management for memory care and special care units for dementia patients**.

- Has the Planning Department reviewed any of these?
- Have they used these best practices to critically appraise the proposal?
- Did the Design Review Committee?

It certainly doesn't appear so. There have been a number of claims which are not only unfounded, but are against best practices found in current literature, including Milliken's claim that there's a great need for PREMIERE ASSISTED LIVING AND MEMORY CARE in our COMMUNITY. We in West Vancouver, and especially our Seniors, deserve better.

Permission to speak

From: **Andy & Jennifer Franks** (andyjen@telus.net) This sender is in your contact list.

Sent: January-26-14 10:39:53 PM

To: Marie Payette-Falls (mtlpf@hotmail.com)

As I am unable to attend the council meeting on Monday, January 27th, I give permission for Marie Payette-Falls of 770 Eden Place to speak on my behalf.

Thank you,
Jennifer Franks
736 Eden Place
604-926-9973

1. Is there a need in the community for this project?

I've reviewed the **Altus Study** which clearly admits that it's **not** a study about the needs of West Vancouver. It also states that in an area about twice the size of West Van, which **doesn't** have a population of 73,000, a developer may have a market for and make a profit from, in the study's words, a "luxury retirement residence" in West Van. It even mentions that about 50% of the clients would come from outside of this (73,000) population area. **Does this really serve our community?**

There's been a proliferation of private "upscale" and exclusive Seniors' facilities like *Maison*. **Does this really fill an unmet need?** A neighbour's sampling of existing Seniors' facilities on the North Shore showed that as of December 1st 2013, all **private** Seniors residences in West Van, as well as Sunrise in North Van, had **vacancies** and **no wait lists**.

1. Westerleigh - 58% vacancy (76 suites)
2. Amica - 4 spaces available, including two for dementia care
3. Hollyburn House - spaces immediately available
4. Sunrise - "all types" of care levels available

Cost wise, the lowest cost of *Maison* was stated to be \$5,500+/month, going up fairly steeply, but even the lowest figure is higher than the average annual income in Canada. The developer even stated that residents requiring a lot of care could be paying over 120K a year, with an average cost being 6500/month, so of benefit to a **very niche or elite population**.

2. **Location wise**, medical professionals supported by evidence, expressed amazement that the corner of Taylor Way & Keith Road would be considered as a suitable site for a Seniors' facility, calling it "one of the worst places" in West Van to put such a facility.

We might not all have a scientific background, but we should all strongly believe in **evidence-based science** because from **evidence and best practices**, we in this municipality can make the best decisions and try to achieve as close to excellence as possible in any endeavour. Building new seniors care facilities is no different.

After everything I've said, how can council even consider going ahead with this project? (I hope that I've cast enough doubt in your minds for you to ~~select option A~~ ^{PLEASE} ~~reject the application~~ ^{do not proceed} ~~any further with this application~~.)

Please post these notes with Council correspondence and on the development application site.

Thank you."

WEST VANCOUVER CITY COUNCIL MEETING January 27, 2014
Research shows that *Maison* is not in line with Best Practices

Speech 2

Good evening Mr. Mayor, Councillors and staff. My name is **Marie Payette-Falls, 770 Eden Place**. I'm speaking as a resident and on behalf of Preserve Sentinel Hill.

"I'm strongly opposed to this development and I'm here to speak about how *Maison* is not in line with best practices in Seniors' Facility Development and to provide evidence to illustrate why.

Many Seniors' facilities were built around 50 years ago and around the idea that Seniors should be warehoused, removed from the rest of society, and "contained". (Many of us have visited these facilities and they can be depressing places.) In reviewing this proposal, despite the "luxury" and "boutique" label, this is what the developer is supporting: an antiquated idea about mass-housing seniors who and I quote "don't leave" and "don't go anywhere."

Have the Planning Department or the DRC even looked into what are best practices for Seniors' facility development? Has the developer who has touted himself as an "expert in facility design"? Jen Franks reviewed the evidence and summarized the findings in her email to Councillors Booth, Gambioni and Panz, putting this question to the municipality: Shouldn't West Van aim for excellence? Shouldn't it question some of the claims put forth by this development proposal & realize that **larger institutions** like *Maison* are **NOT considered best practice and have worse outcomes & satisfaction for residents, (including increased aggression, cognitive decline & greater use of medication), families and staff?** In fact **smaller units** have **positive benefits** for residents such as higher motor functioning, greater

friendship formation, less anxiety & aggression, less sadness and depression, improved caloric intake/eating, greater mobility, improved dressing and hygiene, less physical restraint use. Smaller units are also less stressful for staff, allow for better interactions with residents, and ensure less (staff) turnover. Finally, **adequate outdoor space** is considered essential for cognitive and physical health, including significant decrease in hip fractures, and that **light should abound** and **location should ensure safety**. **Maison falls short on all these.**

a. Studies have shown residents had a 47-55% reduction in disruptive behavior when in bright light conditions during daytime as opposed to controls;

b. Access to outdoor areas results in improved sleep and a decrease in serum cortisol levels (reflecting less stress);

c. Increased light in "non-institutional" dining rooms resulted in increased caloric intake by 1000 calories for a 3-day calorie count. Resident-staff communication also increased.

d. Increased ambient light has consistent positive effects on behavior, agitation and sleep (especially with more severe dementia).

e. As early as 1990, nursing home residents were shown to have inadequate sunlight exposure containing Ultraviolet B radiation required for Vitamin D synthesis. As a result, they are more likely to be Vitamin D deficient and have higher levels of hip fractures compared with elderly in the community. Those with sunlight exposure have fewer hip fractures;

f. Easily accessible outdoor gardens provide necessary regular exposure to direct bright light and sunlight

g. Interior lighting does not contain the spectrum needed for circadian rhythm and Vitamin D synthesis;

h. Bright light and outdoor physical activity have restorative effects on cell and rhythm functions in humans;

i. Physical environment should ensure safety considerations to prevent elopement from windows and wandering.

Virtually no studies suggest that the traditional institutional setting, with multi-bed rooms, long corridors and multi-purpose dining activity rooms results in overall better outcomes. Yet *Maison* is an institutional facility built to maximize massing and density, with minimal outdoor space, located on a steep and sloped terrain on a busy intersection distant and isolated from facilities. It's time to stop allowing buildings of this style to be built & start being proactive about determining what's the real unmet need for seniors and how we meet it in a way that has their best interests as the main concern. The evidence indicates we should be looking at building smaller, quality facilities located on flat surfaces close to amenities, with adequate planning for safe and more extensive outdoor spaces. If the goal is a development which contributes to and enhances residents' quality of life, and maintains their cognitive and physical health - which I believe you and other councillors would support - than this proposal should be rejected. *+ not proceed any further -*

Please post these notes with Council correspondence and on the development application site.

Thank you.

Mayor and Council of The District of West Vancouver.

Council Meeting Jan 27, 2014.

Sirs:

Re: Redevelopment Application for 825 Taylor Way & 707 Keith Road

I am **Esther Del Vicario**, resident and owner of the property at 890-8th Street in West Vancouver which is in the Sentinel Hill area designated by the planning department. I do hereby appoint **Ms. Marie Payette-Falls** to speak on my behalf at the Council Meeting of The District of West Vancouver to be held Monday, Jan 27, 2014, with respect to the Redevelopment Application by Milliken Developments for OCP Zoning changes for the property located at 825 Taylor Way and 707 Keith Road in West Vancouver.

I am strongly opposed to Milliken Developments Application for Redevelopment/Spot Zoning Changes.

I request that Council not approve this Redevelopment Application.

Sincerely

Esther Del Vicario

I request that Council does not approve this Redevelopment/Spot Zoning Application.

Sincerely

A handwritten signature in cursive script that reads "Esther Del Vicario".

Esther Del Vicario

COMMENTS (1/3)

1. "The proposed development is in the most idiotic location. Seniors need a mix of pedestrian access and local restaurants and services, not adjacent to a major traffic corridor. The Dundarave area is a suitable location."

- S. and C. Heynemans, 5347 Kensington Cresc.

2 "We are entirely in agreement with the Statement of Neighbourhood Character! The idea of "spot zoning" is very dangerous, as it would allow a "loop hole" to totally negate any properly approved zoning, and enable developers to take any small piece of land (regardless of its zoning) and turn it into a commercial, for profit "spot zoned" area. Please stop this absurdity, put the needs of your residential voters ahead of profit for developers who do not live here!!"

- E. Rooney and I. Fraser, 941 Esquimalt Ave.

3. "We oppose the Maison Development and believe it is a dangerous precedent for West Vancouver."

- P. Sandhu and E. Hanson, 1341 Inglewood Ave.

4. "This area should imperatively be retained as a single family home district. Further traffic volume on Taylor Way does not bear thinking about."

- J. and C. Gould, 2658 Nelson Ave.

5. "Please add my name to the list of residents totally opposed to this proposal. Ambleside is teaming with commercial zoning properties just begging to be redeveloped. I suggest the District concentrate on their community plan before moving in this direction."

- S. Ferros, 1095 Esquimalt Ave.

6. "I agree that spot zoning should not be allowed. Those that are tasked to take care of our community are failing us."

- J. Webb, 821 Braeside St.

7. "Spot zoning, placing a facility for people who need assistance on a heavily used thoroughfare, up a steep hill, well above the shops does not make any sense to me. It seems once again, very often the priority and dominant criteria is dollars not sense."

- E. and G. Hart, 1058 Fulton Ave.

8. "We oppose the Maison Development at 707 Keith Road/825 Taylor Way. Spot zoning such as this in a single residential neighbourhood sets a very poor precedent for all of West Vancouver."

- J. and K. Chesko, 681 Kenwood

9. "Congestion at Taylor Way/Keith is already terrible. With Evelyn Development soon to be on stream it will be a nightmare. Another commercial building of this size on that corner should never even be considered by Council."

- T. Greenwood and J. Kaberry, 950 Esquimalt Ave.

10. "Is West Van Council dreaming? Rezoning to ruin residential areas?? NO WAY, PEOPLE!!"

- L. and S. Kottmeier, 1570 Dovercourt Rd.

Good evening Mr. Mayor, Councillors and staff. My name is **Pam
Ducommun, 874 - 8th Street, West Van.**

I am here to speak today on behalf of a group of West Vancouver residents, who can't attend this meeting and have asked to read their comments about the proposed *Maison* project.

11. "I oppose the Maison Development at Sentinel Hill as spot zoning sets an undesirable precedent for home owners and residents of West Vancouver. Please stop this type of forced legislation which diminishes the beauty of our neighbourhood."

- P. McGee, 401 - 1766 Duchess Ave.

12. "I was born and raised at 960 Leyland Street and understand there is some high density development being proposed for a large single family lot on Keith Road and Taylor Way. I am strongly opposed to this development."

- J. Komlos, 1730 Rosebery Ave.

13. "I and my wife fully agree with your objection to this development even though we are not directly affected where we live. To change the existing density plan for that area should not even be considered by the District Council."

- D. and D. Wort, 34 - 590 - 17th Street

14. "If a need for type of development can be shown, the developer should acquire a site already zoned for the use."

- R. Wyckham, 102 - 1896 Marine Drive

15. "I/we oppose this commercial development in Sentinel Hill. On the grounds of turning an established residential area into a potential over used commercial space."

- M. and K. and D. Skilling, 1493 Gordon Ave.

16. "We oppose spot zoning at 707 Keith Road/825 Taylor Way. These lots and area should remain zoned single family."

- H. and J. Purewal, 1350 Palmerston Ave.

17. "Although I do see the need for additional facilities like this in West Vancouver, I would hope that they could be developed using the land base already set aside for this type of facility. It's too bad that the Evelyn Drive developer could not have been required to set aside a portion of that project for this type of facility in exchange for the density that they were given."

- B. Nelson, 1010 Leyland St.

18. "That area of Taylor Way is already suffering from too much density. Traffic problems will only be made worse if commercial spot zoning is allowed."

- P. Shannon, 1276 – 22nd St.

19. "We are writing to express our strong opposition to the proposed Maison Senior Living Residence Development. The size and scale of the proposed development site is inappropriate for the residential neighbourhood. With the Evelyn Development underway and the future traffic density because of that development, the proposed development will have extreme negative impact the already congested Keith Road/Taylor Way intersection This proposal is a threat to the surrounding single family properties due to its nature, scale and undue disturbance."

- H. and P. Luke, 860 Esquimalt

20. "I have spoken to some of my neighbours and they, like me, are clearly opposed to the proposed development."

- M. Eastwood, 850 - 8th Street

My name is Elsbeth van Vliet,
I live with my spouse and two sons at 760 Eden Place.

I speak as a resident as a member of preserve Sentinel Hill and I strongly
object to the Maison Senior Care residence.

My reason is:

The corner of Taylor way and Keith road is already one of the worst places
for traffic. As a mom of two teenagers, I'm a lot in the car between 4.00 pm
and 7.00 pm .Often it happens that Taylor way is so backed up, that my
sons are too late for their afternoon activities.

Can you imagine how the traffic will be, when Evelyn drive is completed?
Can you imagine how the traffic will be when Park Royal is completed?
Don't even have to think about the Maison Senior Care residence is
completed.

Taylor way is the key way to West Vancouver, North Vancouver and
Downtown.

I kindly ask the council to reconsider this project.

I'm speaking on behalf of a **group of West Vancouver residents**, who
can't attend this meeting and have asked me to read these comments
about the proposed *Maison* project.

"This is a single family residential area and should remain as such."

B. Jung, 1448 Lawson Ave.

"The corner would become dangerous if the development occurs."

A. and J. Higa, 974 Esquimalt Ave.

"No to spot zoning."

B. and B. Chaworth-Musters, 408 Inglewood Ave.

"We are against any 'spot zoning' of residential properties and against development of commercial enterprise in our residential area."

D. and C. Hart, 684 Esquimalt Ave.

"We oppose spot zoning at 707 Keith Road/825 Taylor Way. These lots should remain single family zone."

U. and O. Steves, 1160 Jefferson Ave.

"In addition to the concerns outlined in this document is the ongoing problem of excessive traffic in an area that is already over-burdened. With ongoing development at Park Royal, this problem is only going to get worse and additional cars coming into this area are unwelcome."

P. and R. Mueller, 755 Anderson Cresc.

"I oppose the Maison Development and its dangerous precedent for West Vancouver."

H. Schultz, 1951 Kings Ave.

"We feel strongly about preserving our neighbourhood Sentinel Hill/Cedardale."

D. Coling and D. Wozny, 642 Keith Road

"There is already way too much traffic in West Vancouver to even contemplate further large developments, especially in quiet residential neighbourhoods. I vote NO to the proposed development on Sentinel Hill."

J. Dennison, 1276 - 22nd Street

"It sounds like you are being 'railroaded' by the developer and the city."

J. McGrath, 6460 Rosebery Ave.

"We fully support and encourage the concept of the establishment of necessary facilities such as Seniors Care in West Vancouver, however, we strongly feel that these facilities be located in areas which are completely compatible with the character of our community and the wishes of our citizens."

P. and J. Wright, 1880 St. Denis Road

PROPERTIES VALUES IMPACTED BY SPOT ZONING (Inglewood Care Home at
Inglewood/Taylor Way).

1. Properties adjacent to Inglewood Care Home (10 properties):

Addresses: 721, 725, 733, 735, 737, 741, 745, 749, 751 Burley

Average assessment (2014): \$1.013 million

2. Properties in vicinity to Inglewood Care Home (14 properties) i.e. separated by road:

Addresses: 720, 730, 740, 750, 755, 760, 761, 769, 810, 811, 815, 819, 820, 825 Burley

Average assessment (2014): \$1.154 million

3. Properties on Burley (comparable housing stock), but east of Taylor Way (13):

Addresses: 610, 615, 620, 630, 635, 640, 650, 655, 660, 675, 680, 690, 695, 696 Burley

Average assessment (2014): \$1.265 million

NB: These properties are closer to Taylor Way than the west Burley properties.

January 27, 2014

Council's Designated Area immediately surrounding the Milliken Commercial Development votes to keep the area zoned for single family homes

Good evening Mayor and Council. My Name is Christopher Loat and I live at 780 Eden Place West Vancouver.

At the last council meeting at which the Maison development came before you for consideration you instructed staff to engage and receive input from the immediate neighbourhood.

Since that time the planning department has sent out one letter outlining the designated immediate neighbourhood area from which input is required together with details of an open house which was subsequently held in the seniors centre. I would be cynical if I thought that the location was chosen to influence the outcome.

Having given Preserve Sentinel Hill permission to have our view represented at the open house, on our arrival the planning department, attempted to have us thrown out of the open house and in a subsequent letter signed by the CAO seriously mischaracterized our behaviour whilst omitting to mention the anger of the developer. To date our question "Who instructed Lisa Berg to ask us to leave" has not been answered.

To speak at Council or have correspondence received by Major and Council I am required to speak or write my name and give my address yet the planning department are accepting comment sheets without name, address or signature and therefore have no idea whether they came from the designated area or from others who may stand to benefit financially from this development and

there is no means of verifying whether or not they have all be sent in by one person.

The planning department has no right to claim broad support from the community because they simply have no means of determining if this is indeed the case.

Staff and most of the DRC have either not responded to or declined the invitation of property owners in the immediate neighbourhood to visit our properties and to understand the massive negative impact that this 75,000 square foot commercial building will have on the adjacent 3,000 square foot single family homes and the planning department have resisted all request from the adjacent property owners to be involved in the process.

The property owners on the other hand have been proactive to ensure that Council receives the information/feedback which you have requested staff to provide but that they have not given you.

The OCP requires that neighbourhood character be defined and the Municipality website would lead us to believe that neighbourhood character is indeed important. Who in the municipality is tasked with defining neighbourhood character? Has someone at the municipality done so on our behalf? As a definition of neighbourhood character for our area has never been crafted a statement of Neighbourhood Character for Sentinel Hill has now been written by home owners living in the very area that Council designated - a copy of which has been submitted to council and which describes our area as one of single family homes which is safe for children.

This statement of Neighbourhood Character has been circulated to all the homes in the area designated by the planning department and from which Council requested input.

On the overall plan that is displayed on the screen; the designated area is shown by the blue outline; properties colored yellow are presently unoccupied; the properties coloured green support the development and the properties colored red, which is an overwhelming majority, are against the development. The owners have signed supporting the "Statement of Neighbourhood Character" and wish to keep the neighbourhood zone for single family dwellings. Each one of the signed papers gives names and the address and can be verified. In total ³²⁹~~306~~ voters want you to keep the area for single family and want no spot zoning. 161 live outside the designated area and 168 live inside the designated area. Only ³~~two~~ - I repeat only ^{3 IN TWO HOMES}~~two of~~ within the designated area are in favour of the Milliken development.

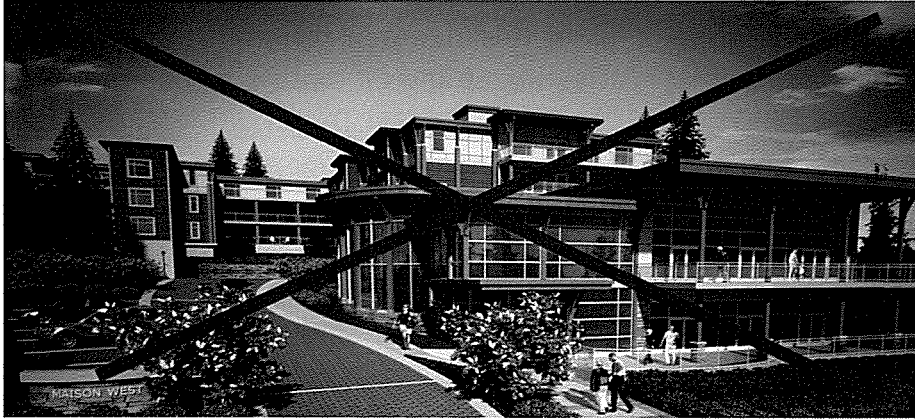

I can therefore truthfully say that Preserve Sentinel Hill has not just broad support from the area designated by the planning department but overwhelming support for maintaining the zoning for Sentinel Hill as single family homes. The owners of the properties, who are tax payers and voters in our municipality and more particularly in the designated area defined by the planning department, are against spot zoning, against increased density and definitely against this development.

We live in a democracy and accordingly you should the respect wishes of the majority of your constituents in the designated area and tonight vote Option C to reject this proposal.

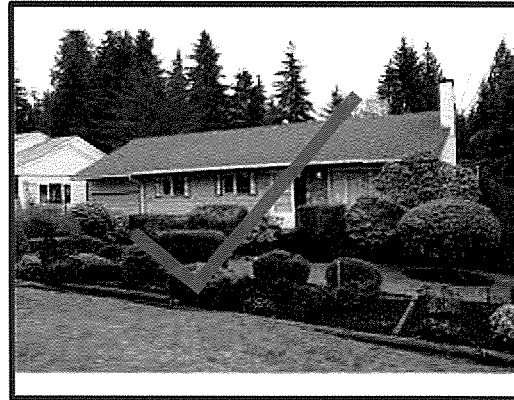

Please place this document in the Council's correspondence file and on the development application site.

HELP US PRESERVE SENTINEL HILL

Say NO to

Say YES to

Say NO to Spot Zoning

- This area of Sentinel Hill is zoned for single family homes only – nothing else – rezoning will allow a 75,000 square foot 24/7 business enterprise in the heart of Sentinel Hill
- The surrounding homes are 3,000 sq ft – this is 25x larger!
- Destroys the Character of the Neighbourhood but this has been given no consideration during the planning process
- Adjacent properties have fallen in value as a result – creating a transfer of wealth away from Sentinel Hill residents to the developer
- Density is greater than the Evelyn Drive development
- Traffic worsening on the 2nd busiest intersection of West Vancouver – already rated as “failing” - will only worsen
- Spot Zoning by the District sets a dangerous precedent for more development on Taylor Way and elsewhere – will your home be impacted next time? There are no rules if a developer is interested in your neighbour’s property

STATEMENT OF NEIGHBOURHOOD CHARACTER

Sentinel Hill SE Quadrant

The neighbourhood is characterized by large treed lots with abundant green space and homes that view onto other similarly-scaled residential properties.

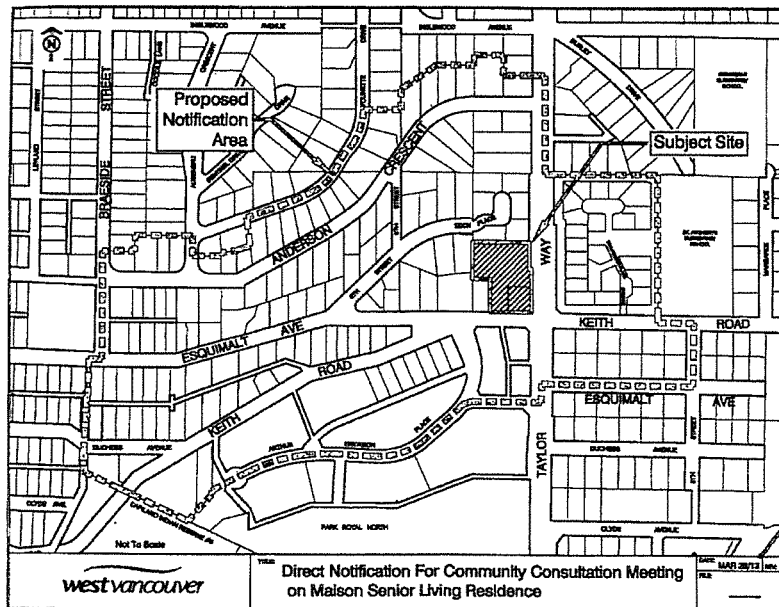

The neighbourhood is composed of homogeneously sized single-family homes that do not exceed 35 per cent of the lot size.

This is a mature, established neighbourhood where older homes are occasionally renewed in like character.

The neighbourhood is quiet, a safe place for children to play; pedestrian friendly, and unencumbered by traffic or on-street parking.

The neighbourhood does not include commercial properties.

The neighbourhood does not include lanes and is not keen on carriage homes.

The map is from the Planning Department's document identifying the area affected by the proposed development. We have used it to define our neighbourhood

Subject: KEEPING NEIGHBOURHOOD CHARACTER

Hi there,

As resident of 712 anderson cres. , I highly **oppose** the spot rezoning of the sentinel hill . We are in agreement with the statement of neighbourhood character.

Spot zoning creates anomalies in the neighborhood. If zoning is to happen, it has to be within a full neighborhood so the character gets changed in overall vision.

Spot rezoning creates spot issues that are hard to address such as traffic, noise, demographic which really destroys what a neighborhood defines as a neighborhood.

Definition :

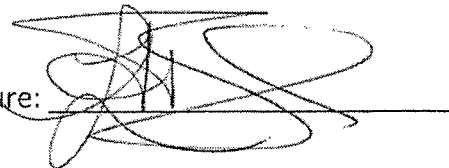

A **neighbourhood** (British English), or **neighborhood** (American English), is a geographically localised community within a larger city, town, suburb or rural area. Neighbourhoods are often social communities with considerable face-to-face interaction among members. "Researchers have not agreed on an exact definition. Neighbourhood is generally defined spatially as a specific geographic area and functionally as a set of social networks. Neighbourhoods, then, are the spatial units in which face-to-face social interactions occur – the personal settings and situations where residents seek to realise common values, socialise youth, and maintain effective social control."^[1] The Old English word for "neighbourhood" was *neahdæl*.^[2]

If you have any comments, please feel free to write them in the space provided below
Our neighbour hood character has been impacted by Evelyn development and we fear further deterioration as a result of this development proposal. Traffic along Esquimalt is increasing significantly as drivers seek shortcuts from west of 11th to Taylor Way rather than drive along Keith Rd. These drivers drive up the hills at speeds which are unsafe for pedestrians along the street. There are no sidewalks, the road narrows at the crest of the hill and there are visibility issues created by topography, vegetation & sunlight (at sunset going west).

Date: _____

The proposed commercial development at 3X the density for single family houses we believe will significantly affect the traffic flow along Esquimalt & further disrupt the quietness and safety of the neighbourhood.

We are entirely in agreement with the Statement of Neighbourhood Character!

The idea of "spot zoning" is very dangerous, as it would allow a "loop hole" to totally negate any properly approved zoning and enable developers to take any small piece of land (regardless of its zoning) & turn it into a commercial, for profit "spot zoned" area. Please stop this absurdity, put the needs of your residential ^{workers} ahead of profit for developers who do not live here!!

In addition to the concerns outlined in this document is the ongoing problem of excessive traffic in an area that is already overburdened. With on-going developments at Park Royal, this problem is only going to get worse and additional cars coming into this area are unwelcome.

Subject: support

Preserve Sentinel Hill

As residents of West Vancouver at 1058 Fulton Avenue for the last fifty-one years, we have seen many changes throughout the Municipality. Some changes have enhanced living here and others much less so, from the standpoint of providing environments that support and encourage neighbourliness and a sense of community.

As a municipality we have many distinctions; enhancing and encouraging neighbourhood cohesion, in my opinion has not been one of them, considering our vulnerability should an earthquake strike near the Vancouver area.

Now traffic on Taylor Way between the highway and the bridge is heavy all day and evening. The Evelyn development is still in the early stages without residents and will put additional pressure on the volume. Spot zoning, placing a facility for people who need assistance on a heavily used thoroughfare, up a steep hill, well above the shops does not make any sense to me. It seems once again, very often the priority and dominant criteria is dollars not sense.

We are in agreement with the Statement of Neighbourhood Character.

Comment: We live in the Cedardale area of West Vancouver. We agree with the statement of neighbourhood character. We are not against carriage homes but believe they are better suited to neighbourhoods with back lanes. We have concerns about increasing density in an area where roads are already congested (eg Taylor Way and Marine Drive) Long lines of idling cars are bad for the quality of air in the neighbourhood. Newcomers are removing trees that we feel protect the quality of our environment.

Hi,

I agree that spot zoning should not be allowed.

I personally went to council a year ago as, in my opinion, they are allowing the destruction of our neighbourhood not just via spot zoning but allowing the clear cutting of mature lots to facilitate the building of large, ugly, box homes.

Those that are tasked to take of our community are failing us.

Thank you for your efforts.

Subject: Proposed development at Taylor Way and Keith Road

Dear neighbour,

Thank you for the information page with respect to the above development. I am very strongly opposed to it. The traffic on Taylor Way and Keith Road is a nightmare already and it would add more congestion to a very busy street.

This is a residential neighbourhood and I have lived at my humble little house since 1989 at 850 8th Street. I know a lot of the neighbours here and I have participated in their Block Watch program. In fact I am still friends with a couple of the neighbours who were no longer able to live in this community because of physical needs. They still miss the area and wish they could have stayed here longer.

I may not be able to attend the meeting because of other commitments. However, you can be assured of my support for your message. I would definitely be pleased to be kept informed.

Yours respectfully,

Mabel C. Eastwood

Subject: Opposition to the Proposed 707 Keith Road Development

Dear Lisa Berg, Senior Community Planner,

As we live on Esquimalt Avenue down the street from the proposed development , we are writing to express our strong opposition to the proposed Maison Senior Living Residence Development. If this application comes before Council we urge that this application be declined for the following reasons:-

- The size and scale of the proposed development site is inappropriate for the residential neighbourhood
- With the Evelyn Development underway and the future traffic density because of that development, the proposed development will have extreme negative impact the already congested Keith Road/Taylor Way intersection.
- This proposal is a threat to the surrounding single family properties due to its nature, scale and undue disturbance.

As we are unable the May 28th Open House, we hope that our feedback and opinion can be brought to all concerned.

Thanks & regards,

Henry & Pamela Luke

Subject: 825 Taylor Way

Hi,
Although I do see the need for additional facilities like this in West Vancouver, I would hope that they could be developed using the land base already set aside for this type of facility. It's too bad that the Evelyn Drive developer could not have been required to set aside a portion of that project for this type of facility in exchange for the density that they were given.

Regards,
Bill Nelson

Comment: This site is inappropriate for the suggested use.

If a need for this type of development can be shown, the developer should acquire a site already zoned for the use.

I support your petition. 821 Braeside Street

Does this suffice or do you need a signed document

On 2014-01-18, at 3:02 PM, Preserve Sentinel Hill <PreserveSentinelHill@telus.net> wrote:

Hi Justin,

I was hoping you might be in agreement to sign our petition to preserve Sentinel Hill to try to halt this proposal to spot zone from single family homes to a high density "CD" zone. I have attached the petition in case you wanted to sign; otherwise, you could just email me back your support with name(s) and address.

We really appreciate your support. Just a heads up that this proposal will be presented to Council at their meeting on Monday, January 27th. Let's hope they listen to the residents they are supposed to represent.

Please feel free to pass on to any neighbours who might also share these concerns.

Thanks again,
Andy Franks

Subject: home owner support, sorry for not sending this earlier

Hello,

We, David and Christine Hart, as residents and property owners of 684 Esquimalt Ave. West Vancouver are in agreement with the **Statement of Neighbourhood Character for Sentinel Hill SE Quadrant.**

We are against any "spot rezoning" of residential properties and against development of commercial enterprise in our residential area.

Regards,

David and Christine Hart

Glad to hear you are interested in joining ADRA. I will forward a copy of their membership application. They're not too "high tech" (nor am I for that matter) and they could probably use some help in that department!

Yes, you may add my name to your Neighbourhood Statement, although I don't object to lanes and am not sure about coach houses.

Best regards,

Melinda Slater

On 25-Sep-13, at 3:47 PM, Preserve Sentinel Hill wrote:

Thanks for your email. Yes, some of the neighbours are members of the ADRA and we are very hopeful they will offer us assistance when necessary.

My husband and I have been interested in the ADRA for a while, since the Evelyn Drive process. We would like to become members, not necessarily for this development proposal, but we think it's a group that has had a very positive impact for West Van. Do you happen to know how we go about it?

Thanks,
Jennifer Franks

Subject: Spot Rezoning - Sentinel Hill.

Hello neighbours, I agree with your concern about spot rezoning and am opposed to the commercial development proposed for Taylor Way and Keith Road.

Are any of you members of ADRA (Ambleside Dundarave Rate Payers Association)? ADRA may be able to offer assistance with this matter, but it's also a good way to find out what's happening in the district.

Membership cost is only \$5.00 per household per year.
