Dear Mayor and Council; following for your information is a link to North Shore News article concerning the mobility strategy under consideration in North Vancouver City. The ideas incorporated have relevance for the West Vancouver strategy now in preparation. As well as a boon to local residents consistent with Council's strategies, a unified approach to improved mobility across the North Shore would be consistent with the North Shore Connects program objectives.

Dear Mayor and Council,

We understand that "temporary" Pickleball courts are proposed for our neighbourhood.

We have s. 22(1) the tennis courts in McKechnie Park for s. 22(1) and have often heard the sounds from a maximum of 4 players at a time. It has not been terribly disturbing, but the idea of 4 Pickleball courts with 4 players on each team and the shouting back and forth noted by citizens in other neighbourhoods who live near Pickleball courts most certainly make us oppose this proposal.

The word "temporary" was used when the Federal Government established income tax during the war years. Once money is spent to change the tennis courts we suspect the temptation to leave Pickleball there could well result in a similar outcome.

Most people in Bayridge and McKechnie Park areas moved here for tranquillity and privacy. Extra traffic and parking on the local streets will not be welcome.

Hopefully you will reconsider this proposal and choose a non- residential area.

Dear Mayor and Council,

I am a resident of [REDACTED] s.22(1) tennis courts. I am not against pickle ball per se, but want full information which should include a noise test during a time that is convenient for those nearest to the courts to be available to hear the impact prior to a decision being made regarding converting the McKechnie Park tennis courts to pickleball.

What dismayed me about the December Council meeting was that those living near the 29th St courts asserted that they were marginalized and ignored to the point that they were forced to hire their own noise experts and lawyers before they got any traction to move the courts. Although the constant noise was ruining the enjoyment of their properties for a considerable length of time, the process of closing those courts to pickleball is only starting to get underway some 2 plus years later. To me that seems backwards, and creates unnecessary animosity between community members. We should have full information/ study on the noise levels before the money, which is not insubstantial, is spent to convert the McKechnie tennis courts.

McKechnie seems to have been put out at the December 10<sup>th</sup> Council meeting as an off the cuff option by Councillor Gambioli so clearly no study or forethought has gone into this option. As well the original option for Ambleside is seemingly not gaining approval only because the Pickleball Club claims parking there is difficult. Not sure why McKechnie would have better parking, as surrounding residential streets are narrow with little space for parking for residents and their guests at the best of times.

Beyond these issues, McKechnie is officially designated a Natural Area Park for the enjoyment of nature so seems highly incongruent with a noisy sport, not to mention our resident owl(s) and nearby nesting eagles.

Sincerely,

[REDACTED] s. 22(1)

Dear Mayor and Council

We received a hand delivered notice on Friday about the proposed pickleball court in McKechnie Park. I do not have to tell you about how divisive pickleball courts are as you just have to go to your experience on 29<sup>th</sup> or reference all the articles and push back on these courts in other communities. My first concern is the nature of this last minute targeted notification, as all affected residents should have an opportunity to address this issue. I know that there is at least one home that is s. 22(1) to the courts that received no notification so I assume there are probably more. I also take issue with this last minute approach without any sort of information or studies specific to McKechnie Park.

s. 22(1), that we use all summer, s. 22(1). I can tell you from our many years of experience that we can clearly hear tennis and talking when the courts are in use so we have to assume that the impact of pickleball based on all of the information available will be substantial. If you actually took the time to understand the local conditions of the courts in McKechnie Park you would realize that the north side of the courts are set into a rock wall creating a sort of acoustical sounding board that helps to resonate sound towards any lots to the south east and west. Most of the lots in this direction are downhill which further increases the possibility for the type of sound waves created by the ball paddle contact to carry further.

You should also take time to understand that the current tennis courts are used by the local community for tennis, hockey, soccer and just running around. My family has enjoyed this for years. In addition we all know the lack of facilities in the community for youth to hang out. The courts and the park provide this very necessary opportunity. We know for a fact that if the pickleball so called temporary use (this I find hard to comprehend to be temporary once the money is spent) goes ahead that the courts will be swarmed with activity. These will be players from all over the north shore and not just west van. So where do they park, where are the washroom facilities and who is going to pick up the garbage? Garbage cleanup has never been a priority for the municipality in McKechnie park and specifically around the tennis courts. I invite all of council to take the time to walk the park and try and understand the actual local conditions. Oh, by the way, be careful as there is also no budget to remove any of the dead, dangerous and hanging trees and limbs.

McKechnie is a Natural Area Park with a very diverse range of wildlife that includes nesting eagles, owls, bears, bobcats (most recent siting last week), coyotes and an endless list of birds. Any impact from noise should take this into consideration.

It does not seem reasonable to me that you just take a problem from one part of the community and stick it in the middle of another part of the community without proper consultation. We do not want to mirror the mistakes that were made at 29<sup>th</sup> where the local residents were forced at their own expense to do the work that the municipality should have done up front. We are here and more than capable of participating in a study that shows us the impacts. Please show us this respect.

Sincerely,

s. 22(1)

West Vancouver

Dear Mayor and Council,

It has come to my attention that the district is planning on “temporarily” installing pickle ball on the tennis courts in McKechnie Park. I have some concerns with that as I am aware there is quite a lot of noise that results from playing this game. I am aware of this as [REDACTED] s. 22(1) and the sound of their playing can be heard clearly [REDACTED] s. 22(1). The sounds of one family playing on one court once in a while is a little annoying but the idea of listening to that sound all day long would be very disturbing. I understand the courts at 29<sup>th</sup> have resulted in a lot of complaints from neighbours. I wouldn’t expect any different from this neighbourhood.

The level of activity and noise this activity would invite does also seem counter to the natural park setting of McKechnie park which is enjoyed regularly by folks in the neighborhood and others who come to enjoy the natural beauty.

I hope you will reconsider this proposal and look for a more appropriate location.

Thanks,

[REDACTED] s. 22(1)

Dear Mayor and Council,  
Here is my letter of objection to the potential relocation of pickleball courts to McKechnie Park.

Best Regards,

[REDACTED] s. 22(1)

January 17, 2022

Dear Mayor and Council,

I am writing to register my objection to the proposed “temporary” siting of pickleball courts on the current tennis courts site in McKechnie Park. I use quotation marks as I don’t believe for a moment that these courts are intended to be temporary.

The community objections to the siting of pickleball courts near residential areas is well documented now world- wide. Pickleball courts have been chased out of their various locations for the same reasons that council has agreed to move the West Vancouver 29<sup>th</sup> Street courts: NOISE- lots of it. In the lower mainland alone pickleball courts have already been removed from the Chestnut Way Park in Port Moody, from Squamish, and Tolmie Park (Victoria). There are readily available articles on the internet about communities further afield, including Brockville and various US cities. The sport knows it has a problem: Currently, residents in Newport Beach, CA, and in Charleston, SC. have filed lawsuits over the disruptive noise. West Vancouver Council has just dealt with a law suit as a result of the 29<sup>th</sup> St. PB court debacle. I would think the electorate might find it incredulous if the council walk blindly into another similar situation.

#### Noise Pollution

Spendrian and Wills, Acoustic and Noise Control Engineers from Tuscon, AZ. Were commissioned by Pickleball Associations to produce a report on how the sport can mitigate the noise factor, because it is making it very difficult for the sport to be accepted in any residential areas (I believe West Vancouver Council have a copy of this report). The report states, “The impulsive sound of the rackets striking balls creates stress, fatigue and anxiety that can affect concentration, and the ability of people to relax or sleep”. As many more people are staying home all day due to work from home restrictions/advice then many more people will be affected by any noise within their living environment.

Having some understanding of the physics of sound is helpful:

Higher pitched sounds are generally perceived as more annoying. The hard pickleball hitting the hard bat produces a high- pitched loud tap of approximately 70 decibels (db) 100 feet away from the strike of the ball. This is comparable with the volume of highway noise.

To give some further context, background noise in a quiet residential area is approximately 40 db (quieter within McKechnie Park), a noisy restaurant is around 85db and a nearby snowmobile is around 100db (pain threshold).

People who live 100 ft away from a pickleball court will be experiencing this high pitched tap at a volume over 30db louder than average background noise. Each time a sound level is increased by 10db it will sound twice as loud- this is the exponential nature of db increases. Hence, an increase of even 30db is 10db + 10db + 10db or 2x as loud x2 times as loud x2 times as loud or 8 TIMES AS LOUD. The natural amphitheatre effect of the placement of the McKechnie tennis courts will further amplify any noise from pickleball courts (the frequency of the tennis ball

hitting the softer strings of the tennis racket is of a lower pitch and volume which is why there are few noise complaints about tennis courts in residential areas).

As you know, the smaller pickleball court will allow for 8 courts within the 2 McKechnie Park tennis courts. There are typically 4 players per court, hence up to 24 people striking the 8 pickleballs in use. The balls are not struck simultaneously and so the noise is not tap tap tap. It will be taptaptaptaptaptaptaptaptaptaptaptap..... The conclusion from the report was that while there are some quite costly techniques that reduce sound pollution from PB, in residential areas indoor courts are the best solution.

Now let's talk about parking

If the vocal pickleball lobby objected to the proposed Ambleside Park area as a new location for their courts on the grounds of insufficient parking, then they need to be informed that there is even less parking here around McKechnie Park. There is effectively no parking on McKechnie Road itself. If cars do park on McKechnie they will potentially be blocking Emergency vehicle access. Remember, people at the 29<sup>th</sup> St courts drove there, typically in their own cars. We are told by the PB lobby themselves that any pickleball courts will be well used, so that means 1 car per player @ 24 players PLUS the sub in players waiting to play in for their turn, so upwards of 30 cars at any one time.

Toilet facilities

There are no toilet facilities in McKechnie, as you are aware. If porta potties are to be placed within this beautiful park, they would have to be near the entrance on Mathers for the purposes of emptying the toilets. 30 plus people every couple of hours will mean a lot of emptying which means higher costs. Of course not everyone may be willing to take the walk all the way to the end to use the facilities...

McKechnie Park: A Natural Area Park

It will no longer be a natural area park with 30 people rotating every couple of hours, high noise levels, porta potties and cars parked all over the place. West Vancouver Council would have to be prepared to formally remove this designation from McKechnie Park which would require further community input.

Nesting Eagles within McKechnie Park

Having outlined the nature and volume of the PB game, there should be genuine concern about the potential harmful effects of this noise on the nesting eagles within the park. Different eagles respond differently to environmental noise pollution. Under noise duress, it has been observed that eagles continue to visit their nests but do so less and less. Ultimately, they may completely abandon the nest as a result of continued noise disturbance.

The bald eagle was on the endangered species list as recently as 2007. Its removal from that list was as a result of concerted public and political will, including the formulation of the Endangered Species Act. It is our responsibility as stewards of the land to help maintain the

strength and growth of the bald eagle population within Canada, and most certainly within our own community of West Vancouver.

The suggested relocation of the 29<sup>th</sup> St. Pickleball courts to McKechnie Park is Inappropriate. There will be residential disturbance due to noise. Parking disruption in a area with limited parking will ensue. McKechnie Park cannot be designated A Natural Area Park with 70db noise emitting from its centre at a radius of 100 ft. The disturbance to wildlife and to Bald Eagles in particular will be real and cannot be ignored. As Ambleside Park is already an area for outdoor recreation it makes far more sense to place the picklball courts there, as originally suggested by council. Pickleball is a growing sport. It's a fun sport, and one I may well play myself one day, but not at the expense of the peace and enjoyment of other people. West Vancouver might do well to include indoor courts as part of their long term community planning.

Sincerely,

s. 22(1)

I take extra interest in the local situation - I live on the North Shore.

I first heard the McKechnie Park idea being floated a few months ago. So I drove out to see the place. Couple unused tennis courts on the reservoir, perimeter fence in place etc.

For the life of me I could not figure out where people park to get to access that location though. The streets are quite narrow and if one thinks pickleball in the usual sense there could be 25 cars driving around looking for spots. I had to park in the maintenance lane access way.

So I say - did I miss something?

*Walter Knecht*

Spendrian and Wills, Acoustic and Noise Control Engineers from Tuscon, AZ. Were commissioned by Pickleball Associations to produce a report on how the sport can mitigate the noise factor, because it is making it very difficult for the sport to be accepted in any residential areas (I believe West Vancouver Council have a copy of this report). The report states, “The impulsive sound of the rackets striking balls creates stress, fatigue and anxiety that can affect concentration, and the ability of people to relax or sleep”. As many more people are staying home all day due to work from home restrictions/advice then many more people will be affected by any noise within their living environment.

Having some understanding of the physics of sound is helpful:

Higher pitched sounds are generally perceived as more annoying. The hard pickleball hitting the hard bat produces a high-pitched loud tap of approximately 70 decibels (db) 100 feet away from the strike of the ball. This is comparable with the volume of highway noise.

To give some further context, background noise in a quiet residential area is approximately 40 db (quieter within McKechnie Park), a noisy restaurant is around 85db and a nearby snowmobile is around 100db (pain threshold).

People who live 100 ft away from a pickleball court will be experiencing this high-pitched tap at a volume over 30db louder than average background noise. Each time a sound level is increased by 10db it will sound twice as loud- this is the exponential nature of db increases. Hence, an increase of even 30db is 10db + 10db + 10db or 2x as loud x2 times as loud x2 times as loud or 8 TIMES AS LOUD. The natural amphitheatre effect of the placement of the McKechnie tennis courts will further amplify any noise from pickleball courts (the frequency of the tennis ball hitting the softer strings of the tennis racket is of a lower pitch and volume which is why there are few noise complaints about tennis courts in residential areas).

As you know, the smaller pickleball court will allow for 8 courts within the 2 McKechnie Park tennis courts. There are typically 4 players per court, hence up to 24 people striking the 8 pickleballs in use. The balls are not struck simultaneously and so the noise is not tap tap tap tap. It will be taptaptaptaptaptaptaptaptaptap..... The conclusion from the report was that while there are some quite costly techniques that reduce sound pollution from PB, in residential areas indoor courts are the best solution.

Now let's talk about parking:

If the vocal pickleball lobby objected to the proposed Ambleside Park area as a new location for their courts on the grounds of insufficient parking, then they need to be informed that there is even less parking here around McKechnie Park. There is effectively no parking on McKechnie Road itself. If cars do park on McKechnie they will potentially be blocking Emergency vehicle access. Remember, people at the 29th St courts drove there, typically in their own cars. We are told by the PB lobby themselves that any pickleball courts will be well used, so that means 1 car per player @ 24 players PLUS the sub in players waiting to play in for their turn, so upwards of 30 cars at any one time.

### Toilet facilities:

There are no toilet facilities in McKechnie, as you are aware. If porta potties are to be placed within this beautiful park, they would have to be near the entrance on Mathers for the purposes of emptying the toilets. 30 plus people every couple of hours will mean a lot of emptying which means higher costs. Of course, not everyone may be willing to take the walk all the way to the end to use the facilities...

### McKechnie Park: A Natural Area Park:

It will no longer be a natural area park with 30 people rotating every couple of hours, high noise levels, porta potties and cars parked all over the place. West Vancouver Council would have to be prepared to formally remove this designation from McKechnie Park which would require further community input.

### Nesting Eagles within McKechnie Park:

Having outlined the nature and volume of the PB game, there should be genuine concern about the potential harmful effects of this noise on the nesting eagles within the park. Different eagles respond differently to environmental noise pollution. Under noise duress, It has been observed that eagles continue to visit their nests but do so less and less. Ultimately, they may completely abandon the nest as a result of continued noise disturbance.

The bald eagle was on the endangered species list as recently as 2007. Its removal from that list was as a result of concerted public and political will, including the formulation of the Endangered Species Act. It is our responsibility as stewards of the land to help maintain the strength and growth of the bald eagle population within Canada, and most certainly within our own community of West Vancouver.

The suggested relocation of the 29th St. Pickleball courts to McKechnie Park is Inappropriate. There will be residential disturbance due to noise. Parking disruption in a area with limited parking will ensue. McKechnie Park cannot be designated A Natural Area Park with 70db noise emitting from its centre at a radius of 100 ft. The disturbance to wildlife and to Bald Eagles in particular will be real and cannot be ignored. As Ambleside Park is already an area for outdoor recreation it makes far more sense to place the pickleball courts there, as originally suggested by council. Pickleball is a growing sport. It's a fun sport, and one I may well play myself one day, but not at the expense of the peace and enjoyment of other people. West Vancouver might do well to include indoor courts as part of their long-term community planning.

Sincerely,

Dear Counsel,

This is a friendly reminder for the West Vancouver City Counsel, in light of current budget discussions, - that there are few- if any, - better uses of environmental-dollars than the "REPLENNISHMENT OF THE ENERGY EFFICIENCY-REBATE- PROGRAM".

Counselman Gambioli was proactive- and kind enough to share her assessment with me a few months back - and we (my wife and I), should like to acknowledge this proactiveness by offering to the Counsel a number of specific recommendations for making the rebate an even more efficient incentive toward sustainability - IF so requested?

Meanwhile, we have been advised to also share these recommendations with Clean BC for potential implementation province-wide.

Their bottom line is that incentives can be slightly better directed without creating more bureaucracy!

We thank you for working to improve our community and we hope you won't hesitate to draw on our "partly-involuntary- and humbly, considerable expertise" in the field of practical improvements to energy efficiency.

**THE CORPORATION OF THE DISTRICT OF WEST VANCOUVER  
PUBLIC ART ADVISORY COMMITTEE  
NAVY JACK POINT PARK & WESTON PARK PUBLIC ART  
SUBCOMMITTEE MEETING MINUTES  
VIA ELECTRONIC COMMUNICATION FACILITIES  
WEDNESDAY, NOVEMBER 3, 2021**

---

Committee Members: B. Kaiser (Chair), P. Azarm Motamedi, and P. Patkau attended the meeting via electronic communication facilities.

Staff: D. Niedermayer, Senior Manager, Cultural Services; and F. Costa, Committee Clerk, attended the meeting via electronic communication facilities.

Guest: E. Fiss attended the meeting via electronic communication facilities.

**1. CALL TO ORDER**

The meeting was called to order at 1:01 p.m.

**2. APPROVAL OF AGENDA**

It was Moved and Seconded:

THAT the November 3, 2021 Navy Jack Point Park & Weston Park Public Art Subcommittee meeting agenda be approved as circulated.

CARRIED

**3. ADOPTION OF MINUTES**

It was Moved and Seconded:

THAT the October 26, 2021 Navy Jack Point Park & Weston Park Public Art Subcommittee meeting minutes be adopted as circulated.

CARRIED

**PUBLIC QUESTIONS**

**4. PUBLIC QUESTIONS**

There were no questions.

**NEXT MEETING**

**5. NEXT MEETING**

It was Moved and Seconded:

THAT the next Navy Jack Point Park & Weston Park Public Art Subcommittee meeting be scheduled for December 15, 2021 at 2 p.m.

CARRIED

**EXCLUSION OF PUBLIC**

**6. Exclusion of Public Pursuant to s.90 and s.93 of the *Community Charter***

It was Moved and Seconded:

THAT in the public interest, members of the public be excluded from part of the November 3, 2021 Navy Jack Point Park & Weston Park Public Art Subcommittee meeting on the basis of the following sections of the *Community Charter*:

- 90. (1) A part of a council meeting may be closed to the public if the subject matter being considered relates to or is one or more of the following:
  - (a) personal information about an identifiable individual who holds or is being considered for a position as an officer, employee, or agent of the municipality or another position appointed by the municipality.
- (2) A part of a council meeting must be closed to the public if the subject matter being considered relates to one or more of the following:
  - (d) a matter that, under another enactment, is such that the public must be excluded from the meeting.
- 93. In addition to its application to council meetings, this Division and section 133 (of the *Community Charter*) also applies to meetings of the following:
  - (a) Council committees.

CARRIED

**7. ADJOURNMENT**

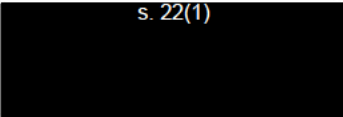

It was Moved and Seconded:

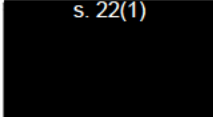

THAT the November 3, 2021 Navy Jack Point Park & Weston Park Public Art Subcommittee meeting (open session) be adjourned.

CARRIED

The meeting adjourned at 1:09 p.m. The Committee then proceeded with the closed session.

**THE CORPORATION OF THE DISTRICT OF WEST VANCOUVER  
PUBLIC ART ADVISORY COMMITTEE MEETING MINUTES  
VIA ELECTRONIC COMMUNICATION FACILITIES  
WEDNESDAY, NOVEMBER 17, 2021**

---

Committee Members: E. Fiss (Chair), P. Azarm Motamedi, B. Kaiser, N. Von Meyenfeldt; and Councillor S. Thompson attended the meeting via electronic communication facilities. Absent: P. Patkau.

Staff: D. Niedermayer, Senior Manager, Cultural Services (Staff Liaison); and F. Costa, Committee Clerk, attended the meeting via electronic communication facilities.

**1. CALL TO ORDER**

The meeting was called to order at 2:01 p.m.

**2. APPROVAL OF AGENDA**

It was Moved and Seconded:

THAT the November 17, 2021 Public Art Advisory Committee meeting agenda be approved as circulated.

CARRIED

**3. ADOPTION OF MINUTES**

It was Moved and Seconded:

THAT the October 20, 2021 Public Art Advisory Committee meeting minutes be adopted as circulated.

CARRIED

**REPORTS / ITEMS**

**4. Council Liaison Update**

Councillor Thompson commented on the process to appoint new members to the committee. Two members are being recommended to Council at this time, and the application process will continue in January and February to receive more applications.

The annual announcement of Council Liaisons for committees is on the November 22, 2021 Council agenda.

It was Moved and Seconded:

THAT the report regarding Council Liaison Update be received for information.

CARRIED

**5. Ambleside Seawalk Public Art Discussion**

N. Von Meyenfeldt reminded the committee about potential locations discussed in previous meetings and that the goal is to identify two or three locations for public art in Ambleside. Members discussed locations at 14th and 17th Streets, considering the "necklace" concept. The location at 17th Street would be on the corner of Marine Drive where there are park benches and space in front of Fresh Street Market.

P. Azarm Motamedi indicated the Sea Walk Garden at the foot of 19th Street that had previously been discussed where one or more small pieces could be placed. Staff informed the committee that the next step is to involve a member of the Parks Department to understand the opportunities for public art in the discussed locations.

It was Moved and Seconded:

THAT a meeting be set up with the Parks Department to discuss potential locations at 14th, 17th, and 19th Streets as discussed by the committee.

CARRIED

**6. Klee Wyck Totem Pole Restoration Update and Budget**

Staff was hoping to have an estimate budget for the restoration of the totem pole being stored at Klee Wyck carved by Chief William Jeffrey. Staff has had difficulty connecting with the Conservator and will attempt to have more information for the committee at the December meeting. Staff has been in contact with the Squamish Nation and has been assured that a member of the Nation will work with the District and family member of the deceased carver to assist with protocols to welcome the totem pole into Squamish Nation territory and assist in the process of determining a location once restoration is complete.

It was Moved and Seconded:

THAT further discussion regarding Klee Wyck Totem Pole Restoration Update and Budget be deferred until information about the budget is available.

CARRIED

**7. Work Plan 2022**

The committee's annual report to Council is scheduled for January 10, 2022. Staff presented the draft PowerPoint presentation that will outline the committee's key 2021 achievements and top 2022 priorities.

The committee agreed that the committee achieved progress in developing the "necklace" concept with three projects already being discussed; initiated the Navy Jack Point Park and Weston Park public art projects; successfully worked with Enhance West Van on the Community Centre project; and sustained strong committee connections and planning despite COVID-19 restrictions.

The committee agreed that priorities for 2022 include restoring the totem pole at Klee Wyck; installing the public art projects currently underway at Municipal Hall, the Community Centre, and Navy Jack Point and Weston Parks; recommending public art projects for the Ambleside Seawalk considering the "necklace" concept; and working with staff on public art inclusion in local area plans and other planning processes.

A discussion was held about public art contributions to larger projects in the District, such as the revitalization of Horseshoe Bay. Staff informed that the former committee members had input into the Horseshoe Bay Park plan. Staff also informed the committee about the laid-down totem pole near the ferry terminal and the participation of the Squamish Nation in this project.

It was Moved and Seconded:

THAT the 2021 achievements and 2022 priorities be accepted as discussed by the committee.

CARRIED

**8. Navy Jack Point Park & Weston Park Public Art Subcommittee Update**

B Kaiser provided an update about the Navy Jack Point & Weston Parks project informing the committee that three artists were shortlisted for each park to make final presentations. Staff is gathering information requested by the artists about the parks. E. Fiss recognized the members of the subcommittee for the efforts dedicated to this project.

It was Moved and Seconded:

THAT the Navy Jack Point Park & Weston Park Public Art Subcommittee Update be received for information.

CARRIED

**9. Staff Update**

Staff informed the committee about the appointment of Sue Ketter as the new Director of Parks, Culture & Community Services. Sue was formerly the Senior Manager for Community Services and is well versed in the work of Cultural Services. Sue has asked to attend a future committee meeting to meet the members.

It was Moved and Seconded:

THAT the discussion regarding Staff Update be received for information.

CARRIED

**PUBLIC QUESTIONS**

**10. PUBLIC QUESTIONS**

There were no questions.

**NEXT MEETING**

**11. NEXT MEETING**

Staff confirmed that the next Public Art Advisory Committee meeting is scheduled for December 14, 2021 at 2 p.m.

**12. ADJOURNMENT**

It was Moved and Seconded:

THAT the November 17, 2021 Public Art Advisory Committee meeting be adjourned.

CARRIED

The meeting adjourned at 3:34 p.m.

Member of Parliament  
West Vancouver-Sunshine Coast-Sea to Sky Country

January 13, 2022

Dear Friends & Neighbours,

The Canada Emergency Business Account (CEBA) program has provided interest-free, partially forgivable loans to nearly 900,000 small businesses and not-for-profit organizations to help them navigate the pandemic and remain resilient. However, the Omicron variant has delayed the recovery for businesses in many parts of the country.

This week, the Honourable Chrystia Freeland, Deputy Prime Minister and Minister of Finance, and the Honourable Mary Ng, Minister of [International Trade](#), [Export Promotion](#), [Small Business](#) and [Economic Development](#), **announced that the repayment deadline for CEBA loans to qualify for partial loan forgiveness is being extended from December 31, 2022, to December 31, 2023**, for all eligible borrowers in good standing.

This extension will support short-term economic recovery and offer greater repayment flexibility to small businesses and not-for-profit organizations, many of which are facing continued challenges due to the pandemic. Repayment on or before the new deadline of December 31, 2023, will result in loan forgiveness of up to a third of the value of the loans (meaning up to \$20,000).

Outstanding loans would subsequently convert to two-year term loans with interest of 5 per cent per annum commencing on January 1, 2024, with the loans fully due by December 31, 2025.

The government is also **announcing that the repayment deadline to qualify for partial forgiveness for CEBA-equivalent lending through the Regional Relief and Recovery Fund is extended to December 31, 2023.**

If you have any questions about this announcement, please do not hesitate to reach out to our office.

Sincerely,

Patrick Weiler, MP  
West Vancouver-Sunshine Coast-Sea to Sky Country

Dear I. Lee.

Thank you for your correspondence addressed to Mayor and Council regarding *Guiding Lights Across BC* (February 22, 2022).

While the issuance of proclamations by the District (and related actions such as illuminating District-owned facilities) was discontinued many years ago, Council appreciates receiving information regarding this important topic.

The information you provided has been posted [on the District's website](#).

Thanks again,

Hi Mayor and Council,

On behalf of Girl Guides of Canada's British Columbia Council, I am writing to **ask for your support for girl empowerment in BC this February 22, by lighting up your building(s) with exterior lighting or interior window lights in the colour blue**. Blue is the well-known colour of Girl Guides and girls/women in BC have worn their blue Girl Guide uniforms with pride for many generations. Last year we had 85+ landmarks across the Province light up blue!

Every year on February 22, Girl Guides celebrate World Thinking Day, a day of international friendship. It is an opportunity to speak out on issues that affect girls and young women, celebrate the founding of Girl Guides, and be connected to the 10 million members around the world who are part of the Guiding movement.

Here in British Columbia, we have thousands of girls and women who are members of Girl Guides of Canada. We have Girl Guide programs in nearly every community in BC, and our girls/volunteers light up their communities year-round through leadership, community service, and efforts to create *a better world, by girls*. Girls typically participate in annual Thinking Day activities held on/around February 22. Due to the continuing effects of COVID-19, our usual large gatherings, campfire singalongs, community events, special camps, and other activities are impacted, and so this year will again look different than usual.

For Thinking Day 2022, we will be celebrating in a way that is COVID-friendly, keeps our communities safe, and brings a smile to the faces of girls, families, volunteers, and the public: **[Guiding Lights Across British Columbia](#)**. This community initiative will light up outdoor landmarks, bridges, buildings, stadiums, and other illuminated locations, with blue lights, in celebration of the sisterhood of Guiding across BC and beyond, on February 22. A map of previous participating locations can be found at [www.girlguides.ca/guidinglightsacrossbc](http://www.girlguides.ca/guidinglightsacrossbc)

We will be mobilizing our members to admire these lit-up sites in ways that comply with COVID-19 rules (both from public health authorities and Girl Guides' own member safety protocols) in effect at that time, posting photos on social media, emailing our members with info about how to participate, and more. We are excited for this open-air opportunity that will enable everyone to safely celebrate.

Our Girl Guide members and broader network of supporters would be thrilled to have your landmarks lit up as part of Guiding Lights Across British Columbia, and to highlight your participation as part of this province-wide event. Please contact us at [bc-prcomm@girlguides.ca](mailto:bc-prcomm@girlguides.ca) to confirm your ability to participate in this February 22, 2022, activity.

Thank you for your support for Guiding in BC!

**Isabella Lee (she/her) | BC Public Relations and Communications Adviser**

Council meetings and Public Hearings are being conducted via electronic communication facilities, pursuant to Council Procedure Bylaw No. 5005, 2019. Click the link below to learn how to participate electronically. The following electronic participation options are provided:

**To watch online** please visit [westvancouver.ca/council-videos](http://westvancouver.ca/council-videos). Only use this option if you do not wish to participate electronically.

**To participate by phone or Webex**, phone Legislative Services at [604-925-7004](tel:604-925-7004) between 8 a.m. and the adjournment of the meeting on the scheduled meeting/hearing date to register to speak.

**Via Telephone**

- Provide staff with your name, phone number, and a description of the item that you wish to speak to; and
- Staff will phone you during the meeting/hearing in order to provide you with an opportunity to address Council via telephone during that item.

**Via Webex**

Before the meeting/hearing:

- Provide staff with your name, phone number, and a description of the item that you wish to speak to;
- Visit <https://westvancouver.webex.com/> to download and install the Cisco Webex Meetings app; and
- [Join a test meeting on Webex](#) to check that your device is ready.

At the scheduled meeting/hearing start time:

- Navigate to the [Council Agendas](#) webpage.
- Click the Webex link next to the meeting/hearing that you wish to join.
- Enter your first name, last name, email address, and event password (**westvan**). The password field may already be filled in.
- Click the “Join Now” button. **Note:** Public speakers must not “Join by Browser”. Only click the button to “Join by Browser” if you do not plan on speaking as your video and microphone will not transmit.

Join Event Now

To join this event, provide the following information.

<b>First name:</b>	<input type="text" value="First name"/>
<b>Last name:</b>	<input type="text" value="Last name"/>
<b>Email address:</b>	<input type="text" value="citizen@westvancouver.ca"/>
<b>Event password:</b>	<input type="password" value="*****"/>

[View image](#)

- Ensure that your audio and video devices are connected by clicking “test speaker and microphone”.
- Click “Join Event” to join the meeting/hearing. Your microphone and video will be turned off automatically upon entry.

1. Adjust and test audio settings

Audio: Use computer audio -

Test speaker and microphone

Unmute -

Join Event

2. Click "Join Event"

[View image](#)

## Speaking

- When it is your turn to speak, your microphone will be unmuted and you will be given the option to turn on your video. **Note:** You must sign up to speak in advance by phoning Legislative Services at 604-925-7004.
- When you are done speaking, the host will mute your microphone and turn off your video.
