

### DISTRICT OF WEST VANCOUVER CERTIFIED PROFESSIONAL MANUAL

April 2021

#### 1. Introduction:

- 1.1. General
- 1.2. District of West Vancouver Building Bylaw
- 1.3. Certified Professional Program

#### 2. District of West Vancouver Certified Professional Program Requirements

- 2.1. General
- 2.2. Application of the Certified Professional Program
- 2.3. Building Permit Application
- 2.4. Civic Address
- 2.5. Construction Value
- 2.6. Development Permit
- 2.7. Building Permit Fees
- 2.8. Staged Building Permits
- 2.9. Tenant and Landlord Improvements
- 2.10. Departmental Reviews
- 2.11. Energy Step Code Requirements
- 2.12. Special Mechanical Systems
- 2.13. Alternative Solutions
- 2.14. Revision Permits
- 2.15. Trade Permits
- 2.16. Sign Permits
- 2.17. Liability Insurance
- 2.18. BC Housing – Residential Projects
- 2.19. Building Inspections and Occupancy
- 2.20. Final Design Drawings

#### 3. Appendix

Certified Professional Program Forms

Please note, this document may be periodically updated in order to ensure the most current information are in place. When referring to the CP Manual, be sure it is the most current version.

## 1. Introduction

### 1.1 General

The Certified Professional Program is recognized as an alternative program to the building permit plan and field review processes in the District of West Vancouver. To become a Certified Professional (CP), Registered Architects and Professional Engineers must successfully complete the Certified Professional Course and pass its examinations as administered by Engineers and Geoscientists British Columbia and Architectural Institute of British Columbia.

### 1.2 District of West Vancouver Building Bylaw

In 2021, District of West Vancouver Council passed an amendment to the Building Bylaw to allow for an alternative plan and field review process using the Certified Professional Program.

CPs have an obligation to the District to monitor and ensure that projects are designed and built in accordance with the BC Building Code, District of West Vancouver Building Bylaw, District of West Vancouver Zoning Bylaw, related development permit, and other applicable enactments. **In accordance with the District of West Vancouver Building Bylaw, a CP may be disqualified from practicing in the District for not meeting District requirements.**

### 1.3 Certified Professional Program

The Certified Professional Program in West Vancouver will essentially follow the requirements outlined in the British Columbia Certified Professional Program Practice and Procedure Manual. Refer to the resources in the link below:

<https://www.egbc.ca/Practice-Resources/Programs-Resources/Certified-Professional-Program>

## 2. District of West Vancouver Certified Professional Program Requirements

### 2.1 General

In general, the Certified Professional Program in West Vancouver follows the procedures outlined in the British Columbia Certified Professional Program Practice and Procedure Manual. This section outlines specific requirements and provides necessary information for CPs to practice in West Vancouver.

### 2.2 Application of the CP Program

The CP Program is applicable to the design and construction of any new building that falls under the scope of Sentence 1.3.3.2.(1) of Division A of the building code or Temporary Building as defined in the District of West Vancouver Building Bylaw No. 4400 2004.

### 2.3 Building Permit Application

The CP must submit the building permit application and all supporting documents. The submission requirements are as outlined in the Certified Professional Program Building Permit Application Checklist in the Appendix.

Once the permit package is complete and ready for submission, the CP can schedule a meeting with the Permits and Inspections Department to go over the particulars of the project and the submission.

For additional requirements refer to the following web page:

<https://westvancouver.ca/home-building-property/permits-licences/permits-inspections>

### 2.4 Civic Address

Prior to making a building permit application, the CP should confirm with Permits & Inspections Department that the correct civic address of the project is used. If a new legal description is pending, it must be registered at the Land Title Office before a building permit will be issued. All Letters of Assurance and drawings are to be complete with the correct civic address noted thereon.

### 2.5 Construction Value

The CP must obtain a construction value from the owner or owner's representative to be declared at the time of building permit application. The District may verify the declared construction value with a third party valuation source prior to building permit issuance. The higher of the values will be used to determine the building permit fees (see also Section 2.7).

From the District of West Vancouver Building Bylaw:

Construction Value means the greater of declared value of the work provided by the applicant or the value of the work calculated by the Manager of Permits and Inspections using accepted current costing guides such as the Altus Helyar Construction Cost Guide. In the event the applicant does not agree with the value determined by the Manager of Permits and Inspections, the applicant may, prior to payment of the fees and issuance of the Permit, retain a professional Quantity Surveyor registered in British Columbia to provide a written estimate of the value of the work, in which event “Construction Value” will mean the value of the work as estimated by the Quantity Surveyor.

## 2.6 Development Permit

The Development Permit must be approved in order to initiate the building permit application process through the CP Program.

## 2.7 Building Permit Fees

The building permit application fees are required to be paid at the time of application. The balance of the permit fees will be calculated and forwarded after the final review has been completed.

For an estimate of the permit fees, refer to the District of West Vancouver Fees and Charges Bylaw:

<https://westvancouver.ca/government/bylaws-strategies-reports/bylaws/fees-and-charges-bylaw>

For CP projects, the building permit fee (based on the Construction Value table) is reduced by 5% to a maximum of \$10,000 per Building if a CP certifies Building Code compliance.

## 2.8 Staged Building Permits

The Building Inspector may issue a permit for a portion of a building, such as excavation and foundation to grade, before the documentation for the entire building has been accepted, provided sufficient information has been submitted to the District to demonstrate to the Building Inspector that the portion of the building accepted for construction substantially complies with the BC Building Code, District of West Vancouver Zoning Bylaw, District of West Vancouver Building Bylaw, related development permit, and other applicable enactments.

### 2.9 Tenant or Landlord Improvements

If a building has not yet been granted final occupancy by the District, any tenant or landlord work and permits requires involvement of the CP. The CP must either take overall responsibility (CP-1) or review the improvement for compatibility with the base building (CP-3).

Prior to base building being granted occupancy, we require the Registered Professionals for the tenant or landlord improvement to be the same as the ones used for the base building. However, we will accept a sealed letter from the base building Certified Registered Professional stating that he/she has discussed the proposed improvements with the base building registered professionals and that it is acceptable for the work to be done by other consultants prior to the base building receiving occupancy.

### 2.10 Departmental Reviews

In addition to the Building Permit review, separate departmental reviews (e.g. Planning, Land Development, Plumbing, etc.) occur during the building permit review process. The CP is the main point of contact with the District and is required to ensure that consultants are providing the District departments with requested information and requirements.

### 2.11 Energy Step Code Requirements

The District has adopted the BC Energy Step Code District requirements. New buildings are required to meet the Step Code Provisions. Refer to the Building Bylaw and the following web page:

<https://westvancouver.ca/home-building-property/permits-licences/building-renovation/building-permits/step>

### 2.12 Special Mechanical Systems

The CP is required to ensure that mechanically related fire emergency systems (such as commercial kitchen exhaust systems, dust collectors, paint spray booths) and fire suppression system drawings have been submitted to the Permits and Inspections Department for review and that all pertinent information is exchanged between the District and the consultant/designer.

### 2.13 Alternative Solutions

Any Alternative Solutions to the requirements of the BC Building Code must be proposed in writing, preferably with the building permit application. The alternative solution must be reviewed and stamped by the CP prior to submission to the District.

For more information, refer to the following web page:

<https://westvancouver.ca/home-building-property/permits-licences/additional-forms>

### 2.14 Revision Permits

Revisions must be submitted to reflect changes made to the approved building permit drawings. However, we do not require a separate permit application to be made for revisions. Revisions stay with the original building permit. The CP must review all drawings and supporting documents to ensure the revisions substantially comply with the BC Building Code, District of West Vancouver Building Bylaw, District of West Vancouver Zoning Bylaw, related development permit, and other applicable enactments. All related drawings and documents submitted are required to bear the stamp of the CP. It is the responsibility of the CP to collect the drawings and supporting documents and amalgamate them into a complete building permit revision package to be submitted to the District.

### 2.15 Trade Permits

Trade permits are required for electrical, mechanical/plumbing, and fire sprinkler works. The District does not issue trade permits for gas which are reviewed by Technical Safety BC. The CP must make sure these permits are in place prior to the contractor starting work.

### 2.16 Sign Permits

A separate permit application is required for signs. Signs are required to meet the Sign Bylaw and Development Permit. Refer to the following web page:

<https://westvancouver.ca/home-building-property/permits-licences/bylaw-licensing/sign-permits>

### 2.17 Liability Insurance

The CP must provide a copy of their liability insurance and must carry a minimum \$1,000,000 per claim.

### 2.18 BC Housing – Residential Projects

BC Housing declaration (warranty approval or exemption) is required for all residential projects.

### 2.19 Building Inspections and Occupancy

The CP is required to perform monthly site reviews and submit a report to the Building Inspector.

The CP should invite the Building Inspector to site at various times throughout the project so that the inspector is familiar with the project.

The Building Inspector may also make random site visits to review the status of the building relative to the CP's site review reports.

Prior to final occupancy, the CP is required to submit the Final Building Inspection Document List (see Appendix) to the District in a binder. Once all required documents are confirmed the CP will coordinate with the Building Inspector on a final walkthrough.

**The Certified Professional can recommend Final Occupancy and/or issuance of Occupancy Permit but cannot authorize occupancy of a building.**

### 2.20 Final Design Drawings (Record Drawing)

**Final design drawings are not required to be submitted to the District if the CP verifies that the accepted building permit drawings were complete and the final design substantially complies with the original building permit drawings.**

If the final design does not substantially comply with the accepted building permit drawings, the CP shall not request a final inspection until revised drawings and a list of changes are submitted and accepted by the District. Revised drawings shall be submitted for each discipline in which the changes are applicable. All revised drawings must comply with the conditions of the approved Development Permit for the project.

### 3. Appendix

#### Certified Professional Program Forms:

- ❖ Confirmation of Commitment by Owner and Certified Professional (Schedule CP-1)
- ❖ Confirmation of Completion of Code Coordination (Schedule CP-2)
- ❖ Confirmation of Tenant Improvement Compatibility (Schedule CP-3)

- ❖ Building Permit Application
- ❖ Building Code Checklist
- ❖ Project Directory
- ❖ Development Permit Compliance Letter
- ❖ Development Permit Confirmation of Changes Letter
- ❖ Monthly Progress Report
- ❖ Final Building Inspection Document Checklist

# DWV Certified Professional Program

## DWV Schedule CP-1

### Confirmation of Commitment by *Owner* and “Certified Professional”

Certified Professional Program  
An Alternate Building Permit Process

### Schedule CP-1

For jurisdictions regulated by the  
British Columbia Building Code

- Notes:
1. This letter is endorsed by the Architectural Institute of British Columbia and Engineers and Geoscientists British Columbia.
  2. The phrase “Building Code” where used in this letter means the British Columbia Building Code.
  3. Words in italics are given the same meaning as defined in the British Columbia Building Code.
  4. Words in “quotations” are defined herein.

To: **Senior Manager, Permits, Inspections, and Land Development**

District of West Vancouver

750 17th Street

West Vancouver, BC V7V 3T3

Date: \_\_\_\_\_

Project Address: \_\_\_\_\_

Building Permit No. \_\_\_\_\_

In signing and submitting this document to the *authority having jurisdiction* the owner confirms that the *owner* has authorized the “Certified Professional (CP)”, to undertake “code coordination” and the undersigned “CP” confirms that the “CP” will undertake “code coordination” with respect to the above noted project for which a building permit is sought.

“Code coordination” includes the following tasks:

1. act on behalf of the *owner* as the *owner’s* representative in matters involving the *authority having jurisdiction* in relation to the building permit, related project construction and related occupancy;
2. ascertain that the required *registered professionals of record (RPR)* for the project have been retained to provide *design and field review* in accordance with the “Building Code”;
3. obtain the necessary letters of Assurance of Professional Design and Commitment for Field Review from the *registered professionals of record* for the project and deliver the originals of same to the *authority having jurisdiction* when applying for the building permit for the project;
4. obtain the other necessary documents required to support the building permit application and deliver same to the *authority having jurisdiction* when applying for the building permit for the project;
5. apply for and obtain a building permit for the project in accordance with the process as described in the *authority having jurisdiction’s* Building By-law;
6. provide “design review” of the plans and supporting documents prepared by each of the *registered professionals of record* for the project;
7. ascertain that the *registered professionals of record* have incorporated in their plans and supporting documents, the requirements of the “Building Code” Division A; Division B Parts 1 and 3; and Division C;
8. ascertain that the Division A; Division B, Parts 1 and 3; and Division C “Building Code” requirements governing the project are compatible between the plans and supporting documents prepared by each *registered professionals of record*;
9. provide “site review” of the components of the plans and supporting documents prepared by each of the *registered professionals of record* for the project;
10. keep records of all “site reviews” by the “CP” and of any corrective action required and taken as a result of these “site reviews”. Discrepancies noted during “site reviews” must be tracked and the resolution of these discrepancies noted such that a list of significant known unresolved discrepancies can be provided at the request of the *authority having jurisdiction*;

“Code coordination” (cont’d):

11. “monitor field review activities” of the *registered professionals of record*;
12. monitor and report on significant events and changes in the project;
13. submit a monthly summary progress report to the *authority having jurisdiction* during construction of the project;
14. consult with the *authority having jurisdiction* if any unresolved variances in interpretation of the “Building Code” arise between the “CP” and the *registered professionals of record*;
15. consult with the *authority having jurisdiction* if any unresolved issues with respect to the “Building Code” arise between the “CP” and the contractor.
16. review relevant shop drawings with respect to the requirements of Division A, Division B, Parts 1 and 3 and Division C of the “Building Code”;
17. notify the *authority having jurisdiction* in a timely manner of any significant known, unresolved contraventions of the “Building Code” or building permit requirements;
18. obtain the necessary letters of Assurance of Professional *Field Review* and Compliance from the *registered professionals of record* or the project and deliver the originals of same to the *authority having jurisdiction* when applying for *occupancy* for the project;
19. obtain the other necessary documents required to support the occupancy application and deliver same to the *authority having jurisdiction* when applying for occupancy for the project;
20. apply for the occupancy approval for the project in accordance with the process as described in the *authority having jurisdiction’s* Building By-law; and
21. apply the “CP” stamp to all relevant documents that are submitted to the *authority having jurisdiction*. Affixing his or her “CP” stamp to a document confirms that the “CP” has provided the relevant portion of “code coordination” applicable to that document.

“Design review” means the activities necessary to ascertain that the design of the project will substantially comply, in all material respects, with the requirements of Division A; Division B, Parts 1 and 3; and Division C of the “Building Code”.

“Monitoring field review activities” means ascertaining that the *registered professionals of record* are providing field reviews as required by Div C, Part 2 of the “Building Code”, and includes keeping records of the *field review* reports prepared by the *registered professionals of record*. The *owner* will instruct each *registered professionals of record* to highlight in the *RPR’s* field review reports any significant variation from the documents accepted in support of the *building permit* and any corrective action as needed. The “CP” will review the variations highlighted in the field review reports and notify the *authority having jurisdiction*, in a timely manner, of significant known unresolved contraventions from the documents accepted in support of the *building permit*.

“Site review” means the activities necessary in the “CP’s” professional judgment to ascertain that the construction of the project substantially complies, in all material respects, with the requirements of Division A; Division B, Parts 1 and 3; and Division C of the “Building Code” and the requirements of the building permit and monitors for compliance with the development permit issued for the project.

In addition to “code coordination” the undersigned *owner* and “CP” also acknowledge that:

1. If the project involves future tenant improvement works, and the base *building* occupancy is not achieved prior to commencement of the tenant improvement works, the involvement of a “CP” may be required; and,
2. The *owner* and the “CP” are each required to notify the *authority having jurisdiction* on or before the date the “CP” ceases to be retained by the *owner*. It is understood that work on the above project will cease as of the effective date of such termination, until such time as a new appointment is made, and a *Stop Work Order* shall be posted upon the said project by the *authority having jurisdiction*.

## Development Permit Compliance Letter

Name of CP: \_\_\_\_\_

Date: \_\_\_\_\_

Project Address: \_\_\_\_\_

Building Permit No.: \_\_\_\_\_

I, \_\_\_\_\_ (CRP/Architect of Record), hereby confirm that the drawings submitted for this stage of construction under the above noted Building Permit substantially comply with Development Permit drawings as issued. I also confirm that I understand this project may be audited by District staff for compliance with the Development Permit.

Signed by: \_\_\_\_\_

## Development Permit Confirmation of Changes Letter

Name of CP: \_\_\_\_\_

Date: \_\_\_\_\_

Project Address: \_\_\_\_\_

Building Permit No.: \_\_\_\_\_

I, \_\_\_\_\_ (CRP/Architect of Record), hereby confirm that the drawings submitted for this stage of construction under the above noted Building Permit do not comply with the Development Permit drawings.

NOTE: All changes must be noted in the Table on Page 2. Particular attention should be paid to the following:

1. Permitted use(s).
2. Building exterior (e.g. doors, windows, siding, rooftop units, venting, change in overall building form including height).
3. Floor area(s) (e.g. additional floors, enclosed balconies, mezzanines, lofts, storage rooms).
4. On-site parking (e.g. add or delete parking stalls, layout changes) and loading and bicycles (e.g. configuration, dimensions, and vertical clearances).
5. Landscape.
6. Number of dwelling units or tenancies.

Plans and details must be submitted to illustrate the listed changes.

Further, I understand that it will be determined by staff at the District of West Vancouver whether an amendment to the Development Permit is required as a result of these changes.

I also confirm that I understand this project may be audited by District staff for compliance with the Development Permit as issued.

## Monthly Progress Report

Project Address: \_\_\_\_\_ Date: \_\_\_\_\_

CP: \_\_\_\_\_ BP Number: \_\_\_\_\_

This report shall be submitted to the Building Department at least once a month

Did DWV Inspector attend site-meeting this month?	Yes	No
---	-----	----

**Job Progress** (please attach spreadsheet if needed):

**Number of Field Reviews this month:**

Architect:	Mechanical Engineer:	CRP:
Structural Engineer:	Electrical Engineer:	Civil Engineer:
Fire Suppression Engineer:	Others:	

Certified Professional has reviewed the Monthly Field Review Reports:	Yes	No
---	-----	----

Copies of the Monthly Field Review Reports are attached and available on site:	Yes	No
--	-----	----

**Shop drawings/submittals reviewed by CP for Code Coordination:**

Are there any changes to permit documents/drawings?	Yes	No
If yes, any changes pertaining to the BC Building Code from submitted permit drawings require: (attach list)		
Plan Review	Yes	No
Amendment to DP/BP	Yes	No
Application for DP minor amendment :	Yes	No
*If this is a minor amendment, please report the status of the amendment in the next Monthly Progress Report.		

**General Comments from CP:**
